
List of terms

ACK

Acknowledge or affirmative response from the receiver to the sender. If BCC is used, ACK also indicates BCC check matches.

BCC

Block Character Checks.

BIPC

Buffer Interface/Protocol Converter.

DCE

Data Communication Equipment. The interfacing equipment that couples from a data terminal into a transmission circuit or channel, and from a transmission circuit or channel into a data terminal.

DTE

Data Terminating Equipment. The functional unit of a data station that serves as a data source or data sink and provides for the data communication control function to be performed in accordance with link protocol.

DTR

Data Terminal Ready.

NAK

Not Acknowledged or a negative response from the receiver to the sender. For example, not ready to receive a message or a block of data received with errors, requires retransmission.

PMS

Property Management System.

SDI

Serial Data Interface.

Meridian 1

Buffer Interface/Protocol Converter

All rights reserved

Information is subject to change without notice.

Northern Telecom reserves the right to make changes in design or components as progress in engineering and manufacturing may warrant. This equipment has been tested and found to comply with the limits for a Class A digital device pursuant to Part 15 of the FCC rules, and the radio interference regulations of Industry Canada. These limits are designed to provide reasonable protection against harmful interference when the equipment is operated in a commercial environment. This equipment generates, uses and can radiate radio frequency energy, and if not installed and used in accordance with the instruction manual, may cause harmful interference to radio communications. Operation of this equipment in a residential area is likely to cause harmful interference in which case the user will be required to correct the interference at their own expense.

SL-1 and Meridian 1 are trademarks of Northern Telecom.
